Canon PowerShot G15 - Digital Photography Review

Canon's PowerShot G-series is one of the most iconic lines of digital compact cameras, with the original G1 having debuted right back in September 2000. The original models sported fast lenses, articulated LCDs, optical viewfinders, Raw data recording and lots of external control, and were aimed at

Canon PowerShot G15: Digital Photography Review

If you had to get just one camera for using over the next few years, which one of these would be the best investment to make? I know that the zoom on the SX50 is a lot bigger/longer but I'm much more interested in what each camera can do and how the images look, not just the zoom.
