[How to Test a Smoke Detector: 14 Steps \(with Pictures\)](#)

Some recommend testing your detectors each week. Obviously it is better to check them more frequently, so do it each week if you can. If you can't, then be sure to plan a time each month to check each smoke detector. Checking your alarm often means you are likely to catch a malfunctioning detector quickly; thus, you are more likely to have a properly functioning detector when you need it. [How to PROPERLY test that your smoke detectors work ...](#)

I installed two new smoke detectors in my house a few months ago and have been testing them using the 'test' buttons. Today I decided to give them a more realistic test by placing a burning and then extinguished match underneath them.

[How to Test Your Smoke Detectors | The Allstate Blog](#)

Smoke detectors and fire alarms may be some of the most important items in your home when it comes to your family's safety. These early warning devices may help alert your family to fire and dangerous smoke while there is still time to evacuate, but they need to be periodically tested to help ensure proper function.

[How to Test Smoke Alarms in Your Home - dummies](#)

A smoke alarm is an inexpensive way to protect your family from smoke and fire injuries, but you must take the time to test it to ensure that it's working properly. A properly functioning smoke detector doubles your chance of surviving a fire by warning you of a dangerous situation before it's too late.

[Smoke Detector Testers | Products | Detector Testers](#)

We have several options for functional testing of smoke detectors. The one you choose will depend on how frequently you are testing detectors, the height at which they are installed, other types of detector you are testing and what test equipment you already have.

[The 7 Best Smoke Detectors to Buy in 2017 - The Spruce](#)

Photoelectric smoke alarms are best at detecting smoldering fires, while ionization smoke alarms are better at detecting sudden, fast-burning fires. Experts say photoelectric smoke detectors generally won't cause as many false alarms, but for the ultimate in safety, they recommend opting for a smoke detector with both types of sensors.

[How to Test a Smoke Alarm | Kidde](#)

Smoke entry in an alarm is through the opening around the perimeter. Hold the aerosol can about 2 feet away from the

alarm. Make sure the can is parallel to the wall or ceiling, depending on where your smoke alarm is mounted.
